## **UNLOCKED: How the Russians Found Out it was the UK that Bombed the Nord Stream Pipelines**

[WORLD HAL TURNER](#) 30 OCTOBER 2022 HITS: 38667

This story was previously locked for Subscribers Only, but as of Nov. 1, it is UNLOCKED for the general public.

Over the past two days, the Russian Ministry of Defense publicly accused the UK of blowing up its Nord Stream pipelines. No proof was offered.

I have found out what the proof actually is . . . . and it is the reason Liz Truss is no longer Prime Minister of the United Kingdom . . .

When the Nord Stream natural gas pipelines between Russia and Germany blew up, most of the thinking world knew it was no accident. With Germany seeing intense political pressure from its citizens to resume buying Russian natural gas - halted after Russia entered Ukraine for a Special Military Operation -- folks in the United Kingdom were not pleased. It was thought within the UK that Germany was going to succumb to citizen pressure, and make its own deal to buy Russian gas.

The British and the Americans could not let that happen.

So a plan was hatched to take the choice away from Germany by blowing-up the Nord Stream Pipelines.

But who would do it?

The British decided THEY would.

The Americans nodded approval.

When the Nord Stream Pipelines began to blow up, Russian natural gas firm GAZPROM got alarm bells from sensors in the pipeline, indicating the pressure had dropped massively and suddenly. GAZPROM then knew the pipes were ruptured.

The computers at GAZPROM, which recorded the minutes/seconds the sensor alarms went off, all use Coordinated Universal Time (UTC) for the time stamps.

Exactly **one minute** after the alarms went off at GAZPROM, iCloud records of Prime Minister Liz Truss iPhone, show that she used her iPhone to send a text message to Antony Blinken, US Secretary of State. The message: **"It's done."**

**The iCloud computers also use Coordinated Universal Time for message time stamps. So although Russia and the UK are in different time zones, UTC proves that it was literally ONE MINUTE after the GAZPROM pressure sensor alarms went off, that Liz Truss sent her text message to Blinken.**

No one else knew the pipelines had been blown up. GAZPROM knew there was a problem, but didn't know what or why.

Liz Truss knew.

Because it was the British government that carried out the bombing.

An act of state terrorism by the actual British Government, against the Russian Federation.

Think about that for a moment. The British Government is now, factually, an actual International Terrorist Organization.

Except when governments do things like this to other countries, it's not called "Terrorism" - it's called something else: An act of war.

And that is why Liz Truss is no longer British Prime Minister. Not because she approved the attack . . . but because she texted "It's done" via insecure text messaging on her iPhone, which the Russians were able to access using Admin privileges through iCloud. And the Russians already have the proof.

Thanks to Liz Truss, the British are caught red-handed, having committed the bombing of pipelines that cost Russia about \$15 Billion between the two Nord Stream routes, to construct. The British government did it. The British government is guilty. A bombing of someone else's critical infrastructure. An act of international terrorism.

The American government knew this plan was in progress. The American government did nothing to stop the crime. Thus, the American government in general, and Secretary of State Antony Blinken in particular, are, at the every least, guilty of Misprison of a Felony. At the worst, the American Government and/or Secretary of State Antony Blinken, are guilty as co-conspirators in the crime.

Since there will be no "justice" for, or through, either the British or American governments (they seem to hold themselves above the law) the only alternative Russia has is War.

I'm told, it is coming.

And who has the underwater drone? Who is keeping it quiet and for who? Russia? Nope.

"The Empire of Lies" label is so fitting for NATO and the West. Hell, that is the admitted operating system of the CIA. Now, these lies have been turned against the American people and the world which begs the question: just who are these Intel agencies protecting? Who are they loyal too? It is obvious that it's not the American people just as it is

obvious that the British and German people are not served by their governments either. Like Communism, the "party" or the governmental system has become more important than the people they pretend to serve. Are we just tax slaves that have run out usefulness at a time of financial crisis and inflation? Are there too many "useless eaters" and not enough food?

Here in the USA, the "party" has placed itself above the safety and needs of its own people as "continuity of government" plans ensure (at the expense of all else) it's continued survival underground as we the people suffer above ground from the policies enforced and decisions made by that same "party" hidden safely among years of stored food and supplies paid for by the tax slaves and the extorted foreign and domestic treasuries via the petrol dollar system.

Now though, it's "reset" time. What better way than a new world war? Turn the table over, start again.

...The countries that did the damage each repay Russia for the reconstruction costs of the pipelines and pay a punitive payment of 5 x to 7 x the original cost of the lines. That would be equitable and is relatively standard in civil litigations.

However, even though this evidence appears to be circumstantial, I would not be surprised if there were stronger evidence, that has not been revealed, that backs this up.

Heck, even if someone found a three foot piece of the wire controlling one of the other drones that exploded, that in itself could show a country of origin.

Lets hope this can be worked out diplomatically and financially and then kick out the cretins that did this.

Kippis

Sweden (Denmark?) said they found an entire unexploded underwater drone near the 4th pipeline. It failed to reach destination and explode, when the guide/power line broke for some reason. No time to retrieve it, apparently.

Nothing said about whose drone it was, or what type of payload it carried. My guess would be, a mininuke. That would explain the completely shocked silence from Sweden about who did it and how they know. Also the 'huge crater' mentions.

I'd have loved to have been older when Nixon got called out on the gold standard. France n another country offered boatloads of gold n silver promissory notes to Nixon. They wanted their gold n silver. Nixon had no choice but to take us off the standard. We already didn't have enough precious metals to cover our debts.

Clearly, the demons in our govt. are printing a few last piles of Monopoly money, getting ma\$\$ive kickbacks from their Ukrainian Nazi pals. They immediately exchange those stolen funds for precious metals, food, n other things of actual value. We'll be left holding the bill... I look forward to their deaths. Your point is well taken; however, the perpetrators are unlikely to step forward and confess. We have to sift through a lot of stuff even just to discern what the possibilities are. So, no, "It's Done" is not proof, but it does give the hounds a scent of where to look for more evidence. Since feints on the international game board are always possible, other lines of investigation need to remain open too.

Honor, bravery, resolve, uprightness, truthfulness, fear of God, mercy, patience, humility, selflessness, respect for life - these are all qualities grossly lacking in modern Brits and Americans, who vote in these leaders. What is left of life when these are missing from it ?

OK, King Charles, House of Lords, Biden, Pelosi, Austin, Milley, Bolton, Blinken, Cheney, Graham, et. al., et. al.: you want to take down Russia ? How about **do it like men in a stand-up fight**, instead of getting thousands of civilians slaughtered in your proxy war, to "weaken" Russia ? This is probably the most sniveling, pusillanimous, despicable, heinous spectacle in all recorded history.

Yeah, I know, it's what evil people do, and you're the ones in power, so I can just pound sand. But all who are promoting this vicarious slaughter will give account to God for all of eternity, and that is much more intense than just "forever".

During WWII brave British sailors faced the perils of arctic seas to keep Russia supplied, so they could fight the Nazi's. Now things are REVERSED!

Britain seems to see itself as an understudy to the leading actor-America. Trying to impress and show it is capable of taking on the role.

Liz Truss will go down as the shortest lived, and dumbest PM in UK history.

Will Russia attack the UK directly. What the Americans see as an unsinkable aircraft carrier may be a false assumption.

They may attack the UK infrastructure; like its gas pipelines, apparently there are only days of storage for gas supplies, another UK Government blunder.

We shall see if " one knowledgeable source,s " warnings come to pass, possibly quite soon.

Pray. If you need to get right with God, please find a pastor who will help you get to Heaven. Heaven is a real place and Jesus is the Lord of Lords.

You don't need a pastor to get into heaven - All you need is Jesus. You don't need to join a church, or pay money to anyone or say a 'special' prayer. All you need to do is:

**Simple as A-B-C:**

**A - ADMIT THAT YOU'RE A SINNER.** This is where that godly sorrow leads to genuine repentance for sinning against the righteous God and there is a change of heart, we change our mind and God changes our hearts and regenerates us from the inside out.

**B - BELIEVE IN YOUR HEART THAT JESUS CHRIST DIED FOR YOUR SINS, WAS BURIED, AND THAT GOD RAISED JESUS FROM THE DEAD.** Believe in your heart that Jesus Christ died for your sins, was buried, and that God raised Jesus from the dead. This is trusting with all of your heart that Jesus Christ is who he said he was.

**C - CALL UPON THE NAME OF THE LORD.** This is trusting with all of your heart that Jesus Christ is who he said he was. Every single person who ever lived since Adam will bend their knee and confess with their mouth that Jesus Christ is Lord, the Lord of Lords and the King of Kings.

If you are not saved, there is no better time than today to get right with God.

Today, I demand that all the corrupt leaders of nations, who chose to supply weapons and aid to Ukraine, be immediately arrested and bound over for trial for crimes against humanity, by denying their citizens basic things needed to sustain life. ich bin aus Deutschland und beobachte die Situation schon sehr lange. Es gab hier Proteste, die forderten die Öffnung der Röhren um die Energiesicherheit zu gewährleisten. Am nächsten Tag hatte sich das mit den Protesten erledigt. Hier sind Papiere aufgetaucht, welche zum Plan haben, Deutschland zu deindustrialisieren, indem man die Beziehungen (wirtschaft / Energie) zu sabotieren. Für die USA soll es nach diesem Papier um 4 Billionen Dollar in den nächsten 4 Jahren gehen, sehr profitabel...

Die Russen haben immer wieder das Völkerrecht angesprochen. Deutschland ist immer noch besetztes Gebiet, was die Sache nicht einfacher macht. Und wer in die UN-Charta schaut (106 / 107) ticktack

Und was hier in Deutschland an Militär täglich zu sehen ist.... Wer hier denkt, es handelt sich um Übungen, ja vielleicht. Dennoch wurde Russland hier "Schach" geboten und die Nato steht bis an die Zähne bewaffnet an der Grenze.

Bezieht man noch andere Informationen ein, kommt man sich vor wie in einem Film.

Alles wird gezeigt - öffentlich !

und schon bald sollen in den USA die Zwischenwahlen stattfinden... wenn sie denn stattfinden. (Hunter)

Und Twitter :-) Welche bisher zensierten Informationen werden dort demnächst diskutiert ? Von dort erwarte ich echte Kracher! Kurz den Blick auf den Finanzsektor nicht vergessen. ...auch mal auf den Anleihe-Markt.

Tja liebe Leute, der Drob ist gelutscht. Sieht aus als würde das ganze System buchstäblich zu Staub zerfallen.

Ist aber nicht schade um dieses System. Es ist für die Menschen gefährlich, zutiefst korrupt und gehört in die Tonne. Es führt unweigerlich zu katastrophalen Zuständen. Schaut euch um ! Jeder Bereich der Gesellschaft steht vor unlösbaren Problemen. Probleme, welche von Idologie und Machtmißbrauch mit persönlicher Vorteilsnahme durch die Regierenden verursacht worden sind.

Vielleicht ist es an der Zeit, das die Befugnisse der Regierungen durch das Militär entzogen werden. Vorzugsweise bevor dieser Planet eingeäschert wird.

Schmerz kommt, und jeder wird ihn spüren. Damit die nächsten Generationen ganz genau wissen, was sie nie wieder haben wollen.

of post from German reader. Maybe we should listen to someone who is actually in the areas affected?

I am from Germany and have been observing the situation for a very long time. There have been protests here demanding the opening of the tubes to ensure energy security. The protests were over by the next day. Papers have appeared here that plan to deindustrialize Germany by sabotaging the relationship (economy / energy). According to this paper, the USA is said to be worth 4 trillion dollars in the next 4 years, very profitably... The Russians have repeatedly raised international law. Germany is still occupied territory, which doesn't make things any easier. And whoever looks at the UN Charter (106 / 107) ticktock And the military that can be seen every day here in Germany... If you think it's about exercises, maybe. Nevertheless, Russia was offered "check" here and NATO is armed to the teeth at the border. If you include other information, you feel like you are in a movie. Everything is shown - publicly! and soon the midterm elections will take place in the USA...if they take place. (hunters) And Twitter :-) What previously censored information will be discussed there soon? From there I expect real crackers! Don't forget to take a quick look at the financial sector. ...also on the bond market. Well dear people, the Droids is sucked. Looks like the whole system is literally turning to dust. But it's not a shame about this system. It is dangerous for people, deeply corrupt and belongs in the bin. It inevitably leads to catastrophic conditions. look around ! Every area of society faces insurmountable problems. Problems caused by ideology and abuse of power for personal gain by those in power.

Maybe it's time for the government to be stripped of its powers by the military. Preferably before this planet is cremated.

Pain comes and everyone will feel it. So that the next generations know exactly what they never want again.

Amazing the stupid things people will do when in a high anxiety moment.  
Imagine, new girl with first important mission.  
She's waiting with high anxiety standing there with her phone in hand (as everyone now days does).  
The report comes in. Without thinking she types "it's done". Pushes send.  
Next rational thought "oh shit"!!!  
That move can't be undone.  
It's very easy to believe.  
It also give a person more respect for Putin and his ability to take things in stride. I mean they did blow up his beloved bridge on his birthday!

Oh, so that's why they had the Trustless one for a few key weeks, so they could use her for that unsecure comm to let the beans spill, initiating the war they desperately need.

Everyone knows how unsecure an iphone text is, let alone for heads of state.

We knew it would eventually come to pass. Big bada booms on the way.

Oh well now the Putin can blow up some empty buildings again after warning the limees of the time and location of the impacts of the missiles incoming. The Putin is gonna have to hit lots of them to make up for 15 billion dollars if he wants payback. Each building only costs a few million to erect. That's all were gonna see from the bleeding hart for retaliation. He is still to scared to hit the men responsible. The Putin should send a team to uk and kill that kunt. But all the bleeding hart can do is bomb empty buildings owned mostly by innocent third parties. IE Landlords. Look for more insurance rate increases thanks to the USELESS retaliation from mister bleeding hart. The next limey attack starts in 5 4 3 2 1  
Bang goes da bridge again.

LOL from the same men as last time.  
Now working in trailers.  
What a joke.  
All one can do is laugh about it.

There's been a remarkable stream of military crafts over the weekend; especially since last nite.

Fighter jets, black hawks and other helicopters I can't recall what they are at the moment. Some land at pga/Page Regional Airport, most just passing over. This place is already rather creepy, btw.

Haven't seen/heard anything like it. Also an inundation of chem trails.

This is new. And somewhat ominous.

If the military aircraft are actually LANDING there, then that's about the worst thing imaginable because it shows they are RELOCATING military assets away from Minot Air Force Base, to preserve them in case of a nuclear strike.

Page is about 219 Road miles from Minot AFB. That's out of the blast zones.

My husband works on the other side of the canyon from the base. For the last several weeks he's been watching them make mock runs down the canyon ending in a mock bombing of the plant he works at.

He's outside on big equipment in the quarry area and has a great view of them coming in. Says they're flying real low, then ending in bombing pattern 4-5 strong each time.

I'm sure it's just standard training. He said it was new for him to see.
